Re: South Dayton Dump and Landfill Site in Moraine, Ohio
Site Spill Identification No.: B52B

Dear Ms. Ropski:

I am writing on behalf of Valley Asphalt Corporation in response to your letter of September 10, 2012, regarding the above referenced site. We have reviewed this letter and also attended by phone the informational meeting on this matter on September 19, 2012.

Valley Asphalt did not generate or transport hazardous substances that were disposed of at the site. We have learned nothing to change our long standing position that Valley Asphalt has no liability at the site. In fact, Valley Asphalt is currently incurring expenses on its property due to vapor intrusion from the South Dayton Dump site. Therefore, Valley Asphalt is not a potentially responsible party at the site.

However, Valley Asphalt does own property adjacent to the South Dayton Dump and, as a neighbor and responsible corporate citizen, we will continue to provide cooperation and reasonable access to EPA and any appropriate state and/or local agency in their continuing investigation of this site.

Please let us know if you have any questions.

Sincerely,

Daniel T. Crago
Environmental Manager
